OZONE TECHNOLOGY

The Latest NEOJECT Tap Water Cleaning System

www.aquapureozone.com

How to use water in your body from daily life?

Drinking

Food washing

Body cleaning

Water tank

**Bacteria
breeding**

Chlorine

Metal pipe

Your water 100% clean?

In fact, you can do much better to keep virus away from our body

Does the water from tap we use everyday clean enough?

Do you know the drinkable tap water not 100% bacteria free?

Tap water alone won't remove pesticide and hormone on food .

Tap water alone has no any protection in our daily life !

NEOJET Series Introduction

Wall-mounted design

Advance technology

Tasteful water

Environmental

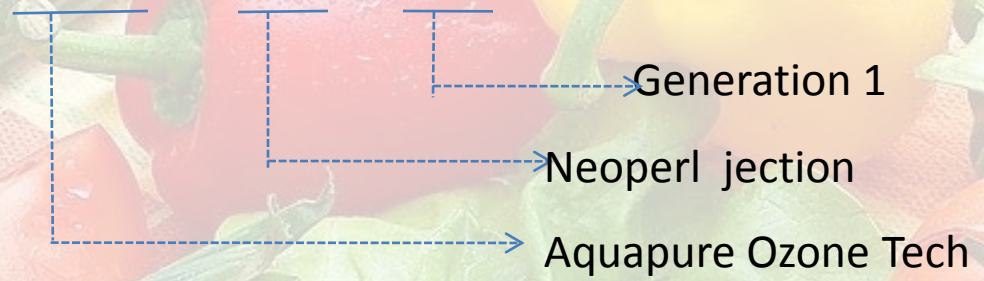

Reliable

With patent

Item Number:

AOT - NJ - 01

Thread: M22

Internal thread

External thread

The AOT-WP-01 is an ozone generator system only which connect the Neojet diffuser with your own tap. And your tap must with standard M22 size for our Neojet. We offer internal and external thread Neojet.

Item Number:

AOT - NJ - 03

→ Generation 3

→ Neoperl section

→ Aquapure Ozone Tech

- 200mg/h ozone
- 0.2-0.5ppm in water
- ≥5L to activate ozone function
- 110-220 VAC
- Wall-mounted, no need screws

The AOT-WP-03 is a complete system which Combine ozone generator with water tap. A built-in Neojet there is no need to worried about the tap matching problem .

Installation Principle

AOT-NJ-01

AOT-NJ-03

Ozone treatment is a proven method to purify water and Ozonated Water (water mixed with ozone) is used to treat many diseases and for various cleaning applications. It features a Neo-jet. This feature allows more ozone efficiently mixed with water.

The Energy Saving Feature allows it to run only when it detects water flow. When one switches on the faucet, it automatically starts making ozonated water.

Advantage

Lower power consumption:
12VDC rated voltage , 12W power only,
world wide use

Safety:
Ozone is unstable and turns back to oxygen
quick in short time, no harm for human

High disinfection effect:
Activate oxygen water can kill 99% bacteria and
virus in water, and remove pesticides from food

Smart and economic design:
No venturi , no air pump, no diffuser stone,
a smart cheap Neojet can take the place of them.

Drinking water that is rich in oxygen and clean

With Ozone you have clean, clear and safe water from your own faucet without any additional installation and/or costs. This ozone generator enriches your water with ozone that quickly releases oxygen particles and enriches the water. The oxidizing power of the oxygen particles renders ill-makers, chemicals and heavy metals harmless while the water that is rich in oxygen feeds you and your body and supports your health.

Natural cleansing of your foods

The use of ozone water as an efficient and effective food purifier has already been discovered long while ago. Ozone water removes potentially ill-makers like the E. coli bacteria from the surface of all your vegetables, fruits, meat, fish, etc. That helps you in even better protecting your health and that of your loved ones. In addition, your food will have a longer shelf life because of this cleaning and the absence of bacteria.

Natural cleansing and care of your body

The cleansing and nourishing properties of ozone water make it a very suitable agent for taking care of affected spots and skin challenges. Use the water as soon as possible from the generator as then the ozone concentration is the highest.

Natural cleaning of your living environment

Because you want to keep your living environment as healthy and clean as possible, it is wise to use as few chemicals as possible to minimize that might overload your body and that from the people you love. You will find that the cleaning effect of active ozone water works very well in your kitchen, bathroom and all other places where hygiene is a high priority.

Natural cleaning of your pets

Your pets deserve all your attention and love and you probably like to have your animals near you. Therefore, it is very important that you keep your pets clean and well groomed naturally without disturbing their natural balances. Ozone water is perfect for that. The cleaning force removes bacteria and therefore dirty odors without the use of soap or other chemicals.
